EuroSys 2014
Call for Papers
14th-16th April 2014
Amsterdam
http://EuroSys2014.cs.vu.nl

The European Conference on Computer Systems (EuroSys) is a premier international forum for presenting computer systems research, broadly construed. EuroSys 2014 seeks papers on all areas of computer systems research, including, but not limited to:

- Cloud computing
- Database systems
- Dependable systems
- Distributed systems
- File and storage systems
- Mobile and pervasive systems
- Networked systems
- Operating systems
- Multicore systems
- Programming-language support and runtime systems
- Real-time and embedded systems
- Secure systems, privacy and anonymity preserving systems

Papers will be judged on novelty, significance, correctness, and clarity. We encourage papers that bridge research in different communities. We also welcome experience papers that clearly articulate lessons learnt and papers that refute prior published results. Papers will be provisionally accepted and final acceptance is subject to shepherding by a member of the program committee.

Reviewing will be double-blind. Papers must not identify the authors and authors’ identities will be hidden from the reviewers. Submissions should be 12 pages including everything except the references, plus any number of references. Papers must be formatted using a 10pt font, single spacing (minimum 11pt spacing between lines), two columns with 0.33 inches between columns, and a text box of 7 by 9 inches. Papers that violate the submission guidelines will be automatically rejected regardless of their merit. Accepted papers will be allowed 14 pages in the proceedings, including references. At least one author of an accepted paper will be expected to travel to the conference to present it.

All submissions will be treated as confidential prior to publication. EuroSys applies ACM’s policies for plagiarism, submission confidentiality, reviewer anonymity, and prior and concurrent paper submission. Access to submitted papers is limited to the PC members and external reviewers, whose names will be listed in the conference proceedings. Submissions accompanied by nondisclosure agreement forms will not be considered. Accepted papers will be made available to the public about one week before the conference (authors are free to make their papers available on their personal web pages beforehand).

Authors who are unsure whether or not their submissions meet these guidelines or have specific questions about the guidelines, are welcome to contact the program committee co-chairs, via eurosys-pc-chairs@mpi-sws.org.

In addition to paper presentations, EuroSys 2014 will have a poster session. Submissions for posters will open closer to the conference deadline. Accepted papers will automatically qualify for the poster session, and authors will be strongly encouraged to participate.
Important Dates

Abstract submission: September 27, 2013
Full paper submission: October 4, 2013
Notification to authors: January 24, 2014

Organizing Committee

General Chairs
Dick Bultermann, CWI
Herbert Bos, Vrije Universiteit Amsterdam

Program Chairs
Ant Rowstron, Microsoft Research Cambridge
Peter Druschel, MPI-SWS

Program Committee
Alan Mislove, Northeastern University
Allen Clement, MPI-SWS
Andrew Myers, Cornell University
Angela Demke Brown, University of Toronto
Anne-Marie Kermarrec, INRIA Rennes
Ant Rowstron, Microsoft Research Cambridge
Asia Slowinska, Vrije Universiteit Amsterdam
Bernard Wong, University of Waterloo
Bryan Ford, Yale University
Christian Cachin, IBM Research - Zurich
Christof Fetzer, TU Dresden
Dejan Kostic, IMDEA Networks
Emmanuel Cecchet, U. Massachusetts, Amherst
Fabián Bustamante, Northwestern University
Fernando Pedone, University of Lugano
Flavio Junqueira, Microsoft Research Cambridge
Frank Dabek, Google
Haibo Chen, Shanghai Jiaotong University
Hitesh Ballani, Microsoft Research Cambridge
Johannes Gehrke, Cornell University/Microsoft
Kevin Elphinstone, NICTA/UNSW
Kimberly Keeton, HP Labs
Landon Cox, Duke University
Lidong Zhou, Microsoft Research Asia
Lorenzo Alvisi, University of Texas at Austin
Manuel Costa, Microsoft Research Cambridge
Maurice Herlihy, Brown University
Pascal Felber, Université de Neuchâtel
Peter Druschel, MPI-SWS
Peter Pietzuch, Imperial College London
Ranjita Bhagwan, Microsoft Research India
Robert Morris, MIT
Rodrigo Fonseca, Brown University
Rodrigo Rodrigues, Universidade Nova de Lisboa
Saikat Guha, Microsoft Research India
Steve Hand, University of Cambridge
Ted Wobber, Microsoft Research Silicon Valley
Timothy Roscoe, ETH Zürich
Vivien Quema, Grenoble INP/ENSIMAG
Y. Charlie Hu, Purdue University
